https://start.ai-pro.org allowed me to log in to chatbot pro using my email and Mosaichw#1994

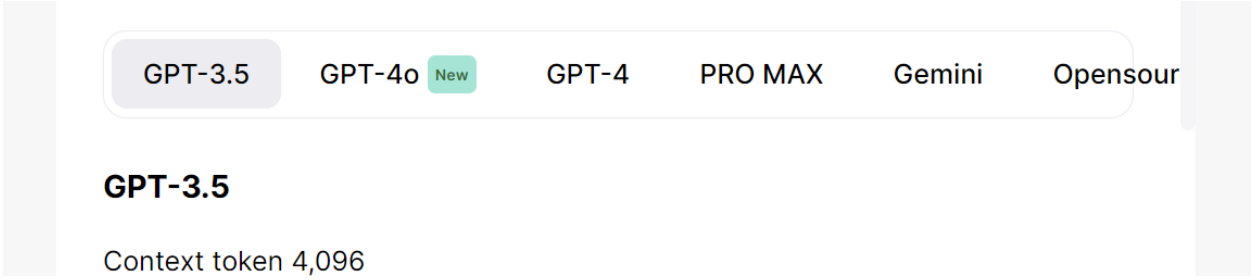

However – you must SELECT appropriate version from the list deisplayed: This can be confusing and does not, it seems to me, give consistent results.

First I enter the above URL

Then I click “chatbot pro” in the list shown:

Then I click the “GPT-4o” item in the next ist:

This gets me into the pro version
